

SPC is the place to be . . .

Because through efforts of the Peaceable Kingdom students raised over \$600.00 for a mission in Haiti.

Because 8th grade students tested and were accepted at their Catholic high schools.

Because the 7th & 8th grade carnival raised \$400.00 to be given to SPC's Lenten Project, Food for the Poor.

SPC has awesome students who represent our school everywhere they travel. Our Future Cities Team returned from Washington, D.C. with good memories and left behind their respectful reputation. All students, no matter where you travel, need to remember our mission of being respectful and cooperative with the community outside of our school buildings.

The business community of Park Ridge is supportive and our school has a wonderful relationship with all our partners from coffee shops to the library. In large part this relationship has been based on students' actions and respect for others. Recently the behavior at the Park Ridge Public Library, especially on Two O'Clock Tuesdays, has been reported as being less than a fine example of SPC students. Students are expected to adhere to the rules, regulations and procedures of our school. That same expectation must be continued when spending time in the Park Ridge Library. Using the library facilities is a service extended to all and the library should never be treated as a "social hang-out." Students are asked to respect the policies of the library including the no food policy and an appropriate noise level.
